ON-DEMAND SCREENING

Increased Retention. Less Downtime. Maximum Flexibility.

SCREEN A WIDE VARIETY OF MATERIALS ANYWHERE YOU WANT.

Screen Smarter

General Kinematics' Mobile Screening Plant is a reliable and durable solution for the aggregate industry. Featuring a mounted 6' x 20' or 8' x 20' GK Horizontal Screen, these mobile screens have superior material retention capabilities. They can easily handle tough, abrasive, heavy, or wet materials that other screens may struggle with.

GK's screens are built to minimize downtime through maintenance-friendly designs. Screening media can be swapped out quickly so you can screen different materials with the same screen- for the same cost.

Why GK Mobile Screens

- Built to Last. Unparalleled quality and durability
- Flexible and portable – great for multiple jobs
- Limited Maintenance & Downtime. Quick-change liners and easy media change-out
- 20" coil spring suspension
- 1" huck bolted (cold rivet) construction
- Hydraulic roll away chutes w/ no hassle super seal
- Blending gates for top and middle decks
- Heavy-duty 25,000 lb leaf spring suspension
